# Clinic 120 Campaign

*Campaign update: October 1, 1995*

The Clinic 120 Campaign to fund the replacement of chairs and equipment in the School of Dentistry clinics was launched in September. Within the first two weeks alumni, faculty, and organizations began responding—some selecting exactly which operatory they would like to sponsor. A “map” of the available operatories has been created and is available for viewing in the dean’s office and in development.

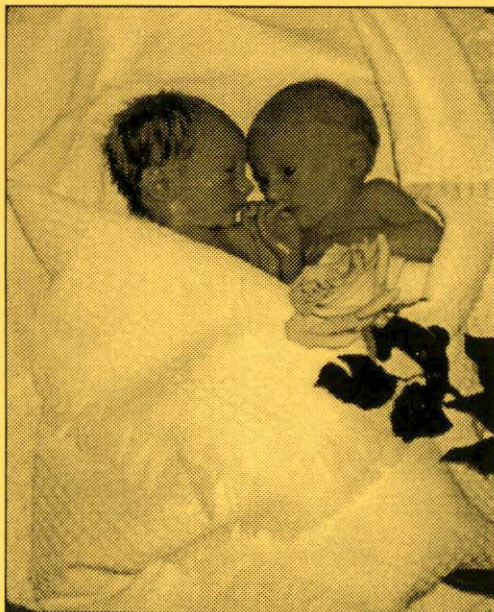

This exciting project to refurbish the worn chairs and equipment needs strong support from the entire School family. Our goal is to have at least 120 “sponsors” as well as additional smaller gifts to supplement this amount. A variety of payment plans for the three-year campaign are available. Operatories may be sponsored in honor of or in memory of friends and loved ones. For more information, please contact me or Barbara Bostwick in the development office.

## Students on the Move

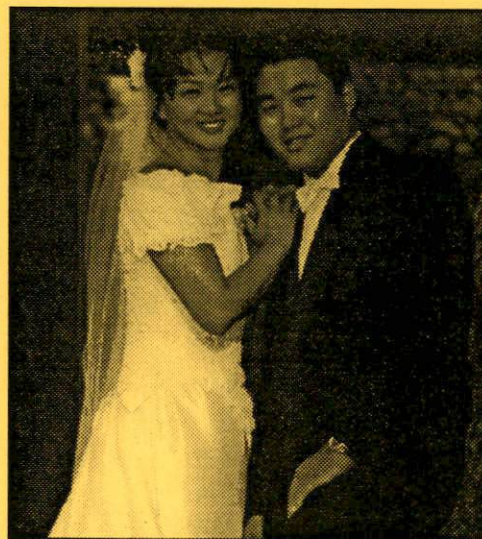

### *Alumni get press space*

The *Tri-County Dental Society Bulletin* gave front page coverage to the new needle designed by SD'95 alumni Michael Wing and Dan Zunitch in their September issue. Congrats to our alumni on their achievement.

### *New additions*

Congratulations to Scott (SD'96) and Barbara Thomas, who added Andrew Scott, 4lb. 8oz., and Matthew Dane, 5lb. 5oz., to their family on September 1.

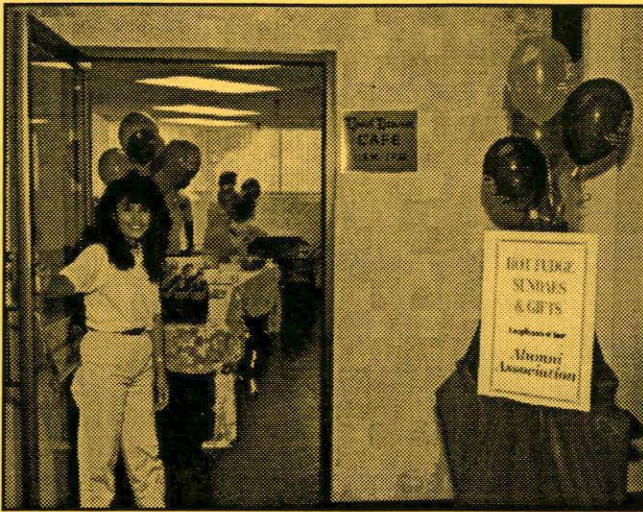

### *Congratulations*

We wish the best to Richard Cho, SD'96, and recent graduate Eun-hwi Whang, who were married on September 17 at the Campus Hill Church.

cannot laugh  
is not only fit for  
treasons, stratagems,  
and spoils,  
but his whole life  
is already a treason  
and a stratagem.*

## Faculty/Alumni Bulletin

### *Program director steps down*

At the meeting of the advanced program directors' council, held September 27, it was announced that Ulf Wikesjö, DDS, PhD, will be stepping down as director of the advanced education program in periodontics. Dr. Wikesjö has been program director for about five years, during which time he has provided significant organization and direction for the program.

Dr. Wikesjö has been involved for a number of years in the area of bone regeneration in periodontal defects, and his leadership in research in this area has made Loma Linda University a recognized leader in this field. He and his group have presented numerous papers at national and

international meetings, and are considered to be on the leading edge of research in this area.

Dr. Wikesjö currently plans to continue his full time teaching role in the advanced education area. The department wishes to recognize him for his leadership over the past several years and to express appreciation to him for the quality of his scholarship within the department during that time.

A search committee will be selected within the next few weeks to begin the search for a new program director.

### *Clinical research*

• Ralph Feller, DDS, director of the clinical research center, attended the 50th anniversary

celebration commemorating the first fluoridation of U.S. drinking water. The celebration, held in September, took place in Grand Rapids, MI, site of the first fluoridation. Dr. Feller notes that fluoridation of the water supply is one of the greatest public health successes ever. Guest speaker at the event was Art Ulene, MD, physician for NBC.

### **Periodontics**

• Ulf Wikesjö, DDS, PhD, professor, returned in September from the American Academy of Periodontology in New York City, where he gave a CE course on factors critical for perio-implant bone and periodontal regeneration.

This month he will be the keynote

speaker for the Japanese Periodontal Society, speaking on periodontal and perio-implant wound healing. Dr. Wikesjö will also present a full-day course for the Taiwan Academy of Periodontology on clinical and experimental advances in periodontal and peri-implant reconstructive therapy. Additionally, he will address advanced perio-regeneration at Kagoshima University in Japan.

### **TMJ**

• Edwin L. Christiansen, DDS, PhD, has coauthored the chapter "Radiographic Evaluation of the TMJ" with Joseph R. Thompson, MD, in the book *Clinical Management of Temporomandibular Disorders and Orofacial Pain* (ed. Pertes and Gross).
